

Department of Planning and Budget 2002 Fiscal Impact Statement

1. Bill Number: SB260

House of Origin Introduced Substitute Engrossed
Second House In Committee Substitute Enrolled

2. Patron: Watkins

3. Committee: Passed both Houses

4. Title: Animal shelters

5. Summary/Purpose: The bill adds definitions of "companion animal rescue agency" and "foster home," and establishes requirements for operating companion animal rescue agencies and foster homes. The bill also sets out separate registration requirements for companion animal rescue agencies and animal pounds and shelters that use foster homes. Companion animal rescue agencies are not inspected by the State Veterinarian prior to accepting animals and are not required to meet shelter regulations set forth by the Department. Instead, a companion animal rescue agency must self-certify and inspect any foster homes used prior to placing an animal to determine if the home meets the basic owner standards of care as set out in § 3.1-796.68 plus additional requirements. These self-certification and inspection reports are to be filed with the State Veterinarian. Companion animal rescue agencies must register with the Department annually and foster homes must self-certify twice a year that they are continuing to meet the basic owner standards of care with the companion animal rescue agency. Pounds and animal shelters that use foster homes to keep animals accepted by the pound or shelter must inspect those foster homes prior to placing an animal. The foster homes must self-certify twice a year that they continue to meet the basic owner standards of care. The Department of Agriculture and Consumer Services may require an appropriate fee for registration as a companion animal rescue agency or foster home.
